***Examiner's Amendment***

1. This application is in condition for allowance except for the presence of claims 5 - 7 to pneumatic tire and a safety pneumatic tire non-elected without traverse (see Paragraph 3 of the Office Action mailed September 16, 2003). Accordingly, claims 5 - 7 have been cancelled.

***Reasons for Allowance***

2. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the unexpected improvement in adhesion at high temperatures between the laminate composition (C) and the rubber composition (A).

While the prior art of record disclose similar compositions for a three layered laminate, the prior art of record fails to teach or render obvious the unexpected improvement in adhesion shown in the declaration of Mr. Daisuke. The Examiner notes that the data presented in the declaration of Mr. Daisuke in combination with the data presented in the as-filed disclosure (*Paragraphs 0002, 0011, 0012 and Table 1*) provides evidence of the unexpected results covering the claimed composition ranges when compared to the closest prior art.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1773
